Modular and Customizable Design

- Modular design allows for custom lengths in traditional, sectional, or extension kits
- Personalized, raised lettering with optional clear-coat, sanded face
- Custom seat engraving highlighted with black or custom color latex paint
- Adjustable hard or soft surface feet with optional anchor kit
- Optional, flanged board supports allow for armrests in any location (e.g. theater seating)
- Rear legs set back to protect walls or for bolting back-to-back
- Classic appearance with many color options

Comfort

- Fully supported, free-moving boards for comfortable seating
- Researched and perfected seat height, shape, and incline for maximum comfort

Easy Maintenance

- Removal of only 3 bolts for most maintenance
- No mounting bolts thru seat boards essentially removes maintenance/assembly issues
- Seating material is not part of the structural integrity of the bench, allowing for easy board maintenance

Longevity

- Powder coat finish with color matched spray paint and touch up paint available
- Aluminum alloy casting for minimal corrosion, high strength and light weight
- Vented steel tubing and vented areas to minimize rust caused from condensation
- Full stainless steel security hardware with SS thread inserts

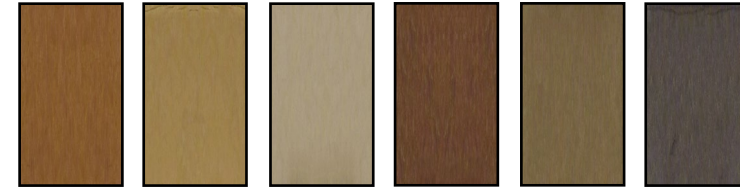

Seating Material

- 12 - 2x3 (1-5/8" x 2-1/2") boards per bench/section

HDPE

- Long lasting and virtually maintenance free
- Never needs to be treated/painted
- Is resistant to salt and acids
- Unaffected by termites, worms, marine parasites, or other insects
- Our HDPE consists of 100% recycled US materials
- Other color options also available

Cedar Lt.Oak Sand Sequoia Weathered Wood Slate Gray

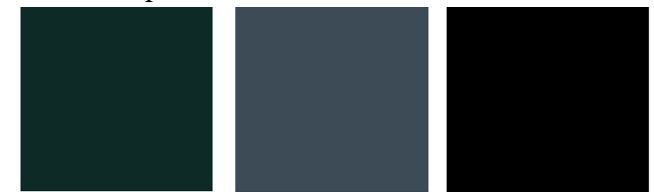

Natural Wood

- Wood options are available
- No mounting bolts thru boards will reduce rotting

Aluminum Castings

- Aluminum castings are long lasting with minimal corrosion
- High strength aluminum that only gets stronger in cold weather
- Our castings consist of 100% recycled US aluminum
- Other color options also available

Black/Green Blue/Grey Black
